The "four causes" are elements of an influential principle in Aristotelian thought whereby explanations of change or movement are classified into four fundamental types of answer to the question "why?". Aristotle wrote that "we do not have knowledge of a thing until we have grasped its why, that is to say, its cause." While there are cases where identifying a "cause" is difficult, or in which ...

A flipped classroom is an instructional strategy and a type of blended learning that reverses the traditional learning environment by delivering instructional content, often online, outside of the classroom. It moves activities, including those that may have traditionally been considered homework, into the classroom. In a flipped classroom, students watch online lectures, collaborate in online ...

Epigenetics is currently one of the most active research domains in biology. It involves the study of a wide variety of biological phenomena such as cellular differentiation and development, metabolism, diseases, phenotypic variability, inheritance, evolution, behaviours, and even culture.

Epigenetics: A way to bridge the gap between biological fields

See Frederick Perls, "A Life Chronology," written in 1968 but published in The Gestalt Journal, XVI(2), Fall '93, pp. 5-9.

Grand Delusions - Chapter 12 - Arthur Janov

The decade saw the end of smallpox as a regular entry in public health statistics, the decline of diphtheria and enteric fever to around 100 cases per year, the greatest ever epidemic of poliomyelitis, and a substantial rise in food poisoning and dysentery, possibly related to better diagnosis now available through the Public Health Laboratory Service (PHLS).

What does the word "apologetics" mean? The word "apologetics". is derived from the ancient Greek word apologia, which means, an apology.. Not an apology in the modern sense of the word - which is to say you're sorry for something. But rather, an apology in the ancient sense of the word - which is to make a reasoned defense of something or someone.
