Product Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable ...

3M Paint Finishing Guide

After 30 years of formulating, testing and manufacturing vertical wall products, Stuc-O-Flex International, Inc. understands the appearance of any project is the one element that immediately reflects the quality and integrity of the building, as well as the construction team involved. Our mission is to complement those efforts with products of the highest quality and enhance cladding ...

Stuc-O-Flex International

Important! Some Polycarbonate substrates can be too solvent-sensitive for use of the preferred Tie Bond Adhesive. The application of a "converted" coat as a primer may provide the adhesion required and not adversely affect the substrate.

Matthews Paint Substrate Preparation Guide

Shelf Life 18 months from date of manufacture when stored in the original container at 60-80°F (15-27°C). • Keep 3M™ Tape Primer 94 in the original container. • Transfer only a small amount into a work vessel for use.

Learn how to get perfect masking lines, also several different masking materials explained. In the last masking article, I covered the very basic masking supplies needed for powder coating and also the reasons you would need to mask. In this article, I will show you some not so common ways to mask off parts when powder coating and also show you how to get nice, clean looking masking lines.
