Create your own sandwich and then see how many sandwiches you can make with different amounts of ingredients. Do the same with chemical reactions. See how many products you can make with different amounts of reactants. Play a game to test your understanding of reactants, products and leftovers. Can you get a perfect score on each level?

Reactants, Products and Leftovers - Chemical Reactions ...

Meditation is a practice where an individual uses a technique – such as mindfulness, or focusing their mind on a particular object, thought or activity – to train attention and awareness, and achieve a mentally clear and emotionally calm and stable state.: 228-29: 180: 415: 107 Some of the earliest written records of meditation (), come from the Hindu traditions of Vedantism around 1500 BCE.

Meditation - Wikipedia

A majority of students in grades 3 to 6 are beyond decoding instruction. Strategic reading allows students to monitor their own thinking and make connections between texts and their own experiences. Based on the Guided Comprehension Model developed by Maureen McLaughlin and Mary Beth Allen, this lesson introduces students to the comprehension strategy of self-questioning.

Constructivist teaching is based on constructivist learning theory. Constructivist teaching is based on the belief that learning occurs as learners are actively involved in a process of meaning and knowledge construction as opposed to passively receiving information. Learners are the makers of meaning and knowledge.

Constructivist teaching methods - Wikipedia

I read about this game on the internet some years back. It is a dice game that can help teach basic addition or multiplication facts. My class just played it yesterday and were begging to play another round at the end of each game.
