On 21 June 2007, the Australian Government announced a 'national emergency response to protect Aboriginal children in the Northern Territory' from sexual abuse and family violence.[1] This has become known as the 'NT intervention' or the 'Emergency Response'. The catalyst for the measures was the release of Report of the Northern Territory Board of Inquiry into the Protection of ...

Chapter 11 Carbohydrates. Carbohydrates are the most abundant biomolecules on earth. Each year, photosynthesis by plants and algae converts more than 100 billion metric tons of CO₂ and H₂O into cellulose and other plant products. Certain carbohydrates (sugar and starch) are a staple of the human diet in most parts of the world, and the oxidation of carbohydrates is the central energy ...

The knowledge argument is one of the main challenges to physicalism, the doctrine that the world is entirely physical. The argument begins with the claim that there are truths about consciousness that cannot be deduced from the complete physical truth. For example, Frank Jackson's Mary learns all ...

The immunohistochemical localization of PDE1, PDE3, and PDE4 isoforms is shown in Figures 2 and 3. In wild-type animals, PDE1A, PDE1C, and PDE3A were expressed in all tubular segments and in collecting ducts, and the highest level of expression was in the distal convoluted tubules (). The pattern of expression in the cystic animals was similar, but immunostaining in the cysts was weak or absent.
