

National Geographic Geography Bee Study Guide

National Geographic Geography Bee Study

The National Geographic GeoBee is an annual competition designed to inspire and reward students' curiosity about the world. Registration for the 2019-2020 school year will open August 1.

National Geographic Bee | National Geographic Society

The National Geographic GeoBee (called the National Geography Bee from 1989-2000 and the National Geographic Bee from 2001-2018, also referred to as the Nat Geo Bee) is an annual geography contest sponsored by the National Geographic Society. The bee, held every year since 1989, is open to students in the fourth through eighth grades in participating schools from the United States.

National Geographic (formerly the National Geographic Magazine and branded also as NAT GEO) is the official magazine of the National Geographic Society. It has been published continuously since its first issue in 1888, nine months after the Society itself was founded. It primarily contains articles about science, geography, history, and world culture.

Physical geography is the branch of geography dealing with the natural features of the Earth, the home of humans. Physical geography looks at the water, air, animals, and land of the planet Earth (i.e. everything that is part of the four spheres - the atmosphere, biosphere, hydrosphere, lithosphere).

Arthropods, invertebrates including insects that have external skeletons, are declining at an alarming rate. While the tropics harbor the majority of arthropod species, little is known about trends in their abundance. We compared arthropod biomass in Puerto Rico's Luquillo rainforest with data taken during the 1970s and found that biomass had fallen 10 to 60 times.
