The password of your macOS user account is also known as your login password. It's the password that you use to log in to your Mac and make certain changes, such as installing software.

Change or reset the password of a macOS user account ...

In Mac OS X, a user's short name is what their home folder is named after and it's also the shorthand name for logging into the Mac either from a lock screen or a network connection with remote access through SSH and SFTP. There's various reasons that you'd want to change the user short name, but it's not just a matter of changing the name listed on a user account.

How to Change the Short Name of a User Account in Mac OS X
