Radiation. The radiation exposure should not exceed 1.0 mSv and has progressively decreased to ≤ 1 mSv, comparable to mammography (0.8 mSv). Newer algorithms using iterative reconstruction have decreased the mean dose to 0.37 mSv, but are variable from vendor to vendor. Further reductions are to be expected with the implementation of model-based iterative reconstruction, with higher signal-to ...

Hypertriglyceridemia, a condition in which triglyceride levels are elevated, is a common disorder in the United States (see the following image). It is often caused or exacerbated by uncontrolled diabetes mellitus, obesity, and sedentary habits, all of which are more prevalent in industrialized societies than in developing nations.

Hypertriglyceridemia Treatment & Management: Approach ...

Non-high-density lipoprotein cholesterol (non-HDL-C) is the total amount of cholesterol contained in lipoproteins other than high-density lipoprotein (HDL). HDL is a particle that contains cholesterol, which is called HDL cholesterol or HDL-C. Non-HDL-C is calculated from the results of a lipid profile by subtracting the HDL-C result from the total cholesterol.

Non-High Density Lipoprotein Cholesterol | Lab Tests Online

Learn how the lipid panel (total cholesterol, HDL cholesterol, LDL cholesterol, triglycerides) is used as part of a cardiac risk assessment to help determine an individual's risk of heart disease. Understand the test and how to interpret its results.

Lipid Panel - Understand the Test & Your Results

Lifestyle Tips. Practice cholesterol-lowering cooking. The definition of "low fat" is now more specific. Medical guidelines suggest you should reduce the amount of saturated fat you eat to keep your cholesterol in check.

Cholesterol | HealthyWomen

Low-density lipoprotein (LDL) is one of the five major groups of lipoprotein which transport all fat molecules around the body in the extracellular water. These groups, from least dense, compared to surrounding water (largest particles) to most dense (smallest particles), are chylomicrons (aka ULDL by the overall density naming convention), very low-density lipoprotein (VLDL), intermediate ...
