RECYCLED PRODUCTS: Paper, Supplies, Other Products

Gary M. Scott, in Waste, 2011 3.2 Paper to Other Products. The various processes used to recycled paper into other products are too numerous to describe in detail in a survey article such as this. However, the varieties of products that can be produced are summarized in Table 10.7. In addition, the processing of recovered paper into usable fiber for papermaking often results in a secondary ...

Recycled Paper - an overview | ScienceDirect Topics

Method. The process of waste paper recycling most often involves mixing used/old paper with water and chemicals to break it down. It is then chopped up and heated, which breaks it down further into strands of cellulose, a type of organic plant material; this resulting mixture is called pulp, or slurry.

Paper recycling - Wikipedia

Printer and copier paper can both be made from recycled paper. Recycled printer and copier paper is available in a range of colors. According to the San Mateo County RecycleWorks, "Each 20 cases of recycled paper saves 17 trees, 390 gallons of oil, 7,000 gallons of water, and 4,100 kwh of energy.

What Products Are Made from Recycled Paper? | Hunker

About Green Forest. The Green Forest brand of environmentally friendly household paper products was born in 1990. In 2005, Planet Inc. (the company that makes Planet certified biodegradable household cleaning products) acquired the brand. We improved the environmental characteristics of Green Forest and worked to make the brand even more successful.

Aluminum Cans. On average, Americans drink one beverage from an aluminum can every day. But we recycle just over 49% of the cans we use. Since the cans are 100% recyclable, we could drastically reduce the energy needed to produce brand new cans simply by recycling our empties.

What Can I Recycle | ThinkGreen | Waste Management

Do you have any Questions/Comments on Marcal? What exactly are recycled paper products and how 'green' are they? There are two ways for paper products to be classified as 'recycled'. The first, the more eco-friendly of the two, is Post-Consumer Recycled Content, meaning the paper was produced from the paper we place in our recycling bins at work or in those blue buckets at our home's ...
