A carburetor choke works to adjust the amount of air that can flow into the carburetor. The less air, the more fuel will be delivered. In colder weather, adjust a Weber carburetor choke to restrict the air flow. This will make starting the vehicle easier. In warmer seasons, the air flow should be increased to lessen ...

After reviewing the multitude of comments on my original review of alarm.com and realizing I had totally forgotten to write the next review, I thought I'd throw together something real quick for anyone still interested in what I have to say.. The truth is my family has been very happy with the alarm.com system we have installed. It has been reliable and operational for at least 8 months now
